

COMPANY PROFILE

Planet Engineering, was formed out of a need to provide assistance to businesses wanting to bid for work in an environment that demands supporting accreditation, documentation and quality Management Systems as pre-requisites of any response. **Planet Engineering** can identify, explain and respond to these requirements and assist you to prepare and submit a professional, compliant and well-structured response.

Background and knowledge:

Planet Engineering boasts a broad variety of in-house experience and skills which is supported whenever necessary through the resources of a broad multi-skilled consultant base. Additionally our directors have:

- ✓ Over 10 years combined experience in the NSW Government Public Service with extensive involvement in preparing tender documentation;
- ✓ Formal involvement in the assessment of tender documentation for the NSW Department of Commerce and many other government agencies; and
- ✓ Extensive experience in preparation of tender responses in all industry sectors.

What our service provides:

- ✓ An appreciation and full understanding of all requirements of the tender;
- ✓ Attendance at any pre-tender meetings;
- ✓ Investigation of Alternate Tender response options;
- ✓ Preparation of responses to all tender schedules including, but not limited to:
 - Occupational Health & Safety (OH&S);
 - Environmental Management;
 - Quality Assurance;
 - Industrial Relations;
 - Aboriginal / Indigenous / Disadvantaged Participation;
 - Personnel Resumes;
 - Relevant Experience and Qualifications; and
 - Financial Information.

Using PLANET will ensure that your tender will:

- ✓ Be compliant in all aspects and therefore not rejected;
- ✓ Address all the evaluation criteria;
- ✓ Be submitted complete and on time; and
- ✓ Not include superfluous material likely to damage your chances of success.
